2. What is the Earn While You Learn(EWYL) Program?

The EWYL Program is a crucial component of Edoofa's education program and sets it apart from other institutions. It provides a unique opportunity for students to gain practical work experience and earn scholarship credits, which can be used to reduce their higher education fees.

During the program, students are assigned real-time live online projects that allow them to gain valuable work experience while pursuing their academic goals. Based on their performance in these projects, they earn scholarship credits that are equivalent to physical cash. These credits can be utilized to pay off a substantial portion of their higher education fees, making university education more accessible and affordable for all students.

At Edoofa, we believe that practical work experience is an essential part of the learning process, and the EWYL program offers students the opportunity to acquire this experience while studying. We encourage all our students to participate in this program and take advantage of the opportunity to gain the necessary skills and knowledge to succeed in their future careers.

We are committed to providing our students with the resources and support they need to excel in their academic pursuits and achieve their goals.
